

## **Gooding Joint School District No. 231**

### **STUDENTS**

**3205**

#### Student Insurance

The District does not furnish health or accident insurance to any student, but does provide a policy whereby parents may choose to enroll their child in an insurance program. In the case of student athletics, students are required to either purchase insurance on their own or through the policy available through the school, or have a letter on file from the parents or guardians of the student athlete indicating that the student has coverage and will release the school from any and all liability and responsibility.

#### Policy History:

Adopted on: July 17, 2012
