

Gooding Joint School District

2021-2022 Flex Days

CERTIFIED STAFF ONLY

The Gooding Joint School District has built two (2) Flex days into the 2021-2022 school calendar to provide teachers with flexible time to prepare for their 21st century classrooms, aligning curriculum to the Common Core State Standards, and becoming a better teacher. These Flex days are available beginning June 1, 2021 and end May 30th, 2022. Any days left unaccounted for will be deducted from the teacher's personal days if available or from their daily pay. Each teacher is responsible to account for their days. Appropriate uses of Flex days include attending conferences, workshops, state delivered trainings, online webinars (outside of the normal work day) totaling a full day, working on curriculum, working with classroom technology, building lesson plans, or other activities for which you are not already being compensated. If you have any questions about Flex Days, please contact your administrator or the district office. These days are part of the 166 contracted days. The breakdown is as follows: 146 student contact days, the 12 professional development/work days, 2 days counted towards parent teacher conferences, 2 Flex days, and 5 paid holidays. Coaching clinics or similar activities will not be counted toward the 2 Flex days.
