

Selection of Library Materials

The District has libraries in every school with the primary objective of implementing and supporting the educational program in the schools. The provision of a wide variety of library materials at all ability levels supports the District's school libraries' mission to provide faculty and students with materials that enrich and support the curriculum and meet the needs of the students and faculty served

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and expressed in the American Library Association's School Library Bill of Rights.

Although the Superintendent is responsible for ensuring qualified staff select library materials according to appropriate criteria, ultimate responsibility for the selection of library materials rests with the Board.

The Board, acting through the Superintendent, thereby delegates the authority for the selection of library materials to the principal in each of the schools. The principal further delegates that authority to the librarian in the school.

Library materials may include, but are not limited to print books, recordings, digital materials, periodicals and newspapers, and even equipment. This selection policy and its related procedure shall apply to all types of library materials.

The District's school libraries shall adhere to District policies and procedures related to copyright.
